Full stack developer / Visma Lietuva

2017.09 - Current

Working as a developer at the Website/Webshop team on an e-commerce solution for creating elegant sites and successful shops. You can read more [here](#) and watch [here](#).

Main responsibilities/tasks: tasks varied from back-end/front-end to solving support cases/bugs, maintaining maturity indexes, and related documents.

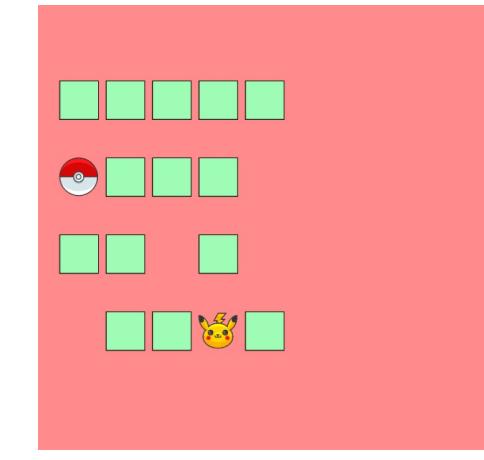

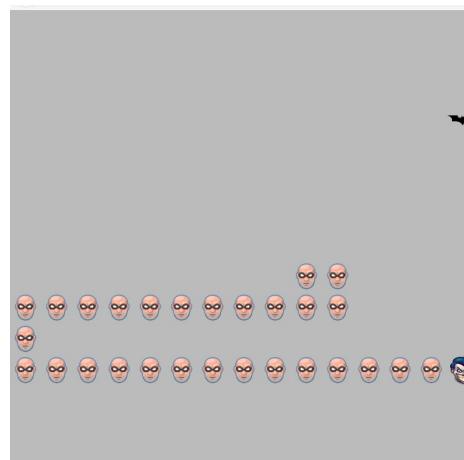

Tools/technologies: .NET, Jquery, TeamCity, Azure Portal, Octopus.

Full stack .NET Intern / Visma Lietuva

2017.07 - 2017.09

Worked on a project for sharing stuff amongst employees. Tasks varied from back-end, front-end to configuration and deployment. Was responsible for front-end structure, authorization, teamcity configuration and other smaller functions. Learnt how to work in a fun team, improved my overall coding skills and had the opportunity to take lessons from amazing senior developers.

My Games

About me

Born at a very young age, grew up with *Star Wars* movies and somehow turned into 60% geek, 33% comedian, 53% programmer, 56.78% dancer and I'm 100% certain that half of this is true.

Hobbies

Amazed by Damian Chazelle talents

Hoping all friends have a Facebook picture taken by me

In romantic relationship with Jazz

Junkie on cheap flights

Education

Vilnius University

2013 - 2018

Software Engineering

Utenos Adolfo Sapokos Gymnasium

2009 - 2013

Favorite quotes

All great deeds and all great thoughts have a ridiculous beginning. Great works are often born on a street corner or in a restaurant's revolving door.

Albert Camus

If debugging is the process of removing software bugs, then programming must be the process of putting them in.

Edsger Dijkstra

```
if (sad() === true) {  
    sad.stop();  
    beAwesome();  
}
```
